Keyblind x Smithery

Keyblind is on Smithery

One click to install a secrets vault for your agent.
keyblind.devblind AI to your keys

The usual pain

Hand-editing MCP config JSON to wire up a server.

keyblind.devblind AI to your keys

Keyblind
03 / 07
Registry install
Search, add, done. The server config is handled for you.
keyblind.devblind AI to your keys

Keyblind
04 / 07

What you get

AES-256-GCM encryption, runtime resolution, sandboxing.
keyblind.devblind AI to your keys

Keyblind
05 / 07
Zero network
Everything stays on your machine. No cloud, no account.
keyblind.devblind AI to your keys

Why this matters

Lower install friction means more devs actually protect their keys.

Keyblind
07 / 07

Try it

npm i -g keyblind
