Editor coverage
Cline and Zed support
One command now configures them too.
keyblind.devblind AI to your keys

Keyblind

Claude Code
Already wired since day one.
keyblind.devblind AI to your keys

Cline

Now auto-configured from the same setup-mcp command.

keyblind.devblind AI to your keys

Zed

Same treatment, same single command.

keyblind.devblind AI to your keys

Why

Devs switch editors, but they shouldn't lose their secret protection.
keyblind.devblind AI to your keys

Try it

keyblind setup-mcp
