Supply chain

Zero prod vulnerabilities

npm audit is clean on the production tree.

Why it matters
A secrets vault can't afford a vulnerable dependency.
keyblind.devblind AI to your keys

Keyblind
03 / 07

The fix

Pinned every transitive dep to a patched version.
keyblind.devblind AI to your keys

Keyblind
04 / 07

The threat model

Your keys are only as safe as the whole dependency chain.
keyblind.devblind AI to your keys

Keyblind
05 / 07

Crypto isn't enough

AES-256-GCM means little if a dep below it is backdoored.

keyblind.devblind AI to your keys

Keyblind
06 / 07

The discipline

Audit on every release. Never let it drift.

keyblind.devblind AI to your keys

Keyblind
